The U.S. Dietary Guidelines recommend that Americans who choose to drink alcoholic beverages should do so sensibly and in moderation-defined as the consumption of up to one drink per day for women and up to two drinks per day for men.
A standard drink is widely considered to be 12 fluid ounces of regular beer; 5 fluid ounces of wine; or 1.5 fluid ounces of 80 -proof distilled spirits. The values for each top-selling brand were obtained from the manufacturer's website or from the manufacturers themselves.
